Kelley's tune "Katie's Song" is about his soon-to-be bride

MEET KATHERINE'S MAN

10 When Josh Kelley met *Grey's Anatomy* star Katherine Heigl at the 2005 video shoot for his hit song "Only You," he had no idea how telling the title would become. The couple, who will reportedly marry December 23 in Utah, try to stay low-key about their romance, but Heigl *has* described her man as "the perfect male specimen." How perfect? Kelley, whose new album, *Special Company*, will be released February 5, can solve a Rubik's Cube in less than two minutes, fold his tongue over three times and has a 2-handicap in golf.
